# **ORIENT GREEN POWER (EUROPE) B.V.**

### Notes forming part of Financial Statements

#### SIGNIFICANT ACCOUNTING POLICIES

#### 1. Corporate information:

Orient Green Power (Europe) B.V. (OGPE) is in the Business of engineering and contracting of power plants and generating power from renewable sources.

#### 2. Significant Accounting Policies:

a. The financial statements have been prepared under the historical cost convention on accrual basis and in accordance with the accounting principles generally accepted in India and comply with mandatory Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies(Accounts) Rules, 2014 and relevant provisions of the Companies Act, 2013. The accounting policies are consistent with those used in the previous year. The financial statements are prepared on a going concern basis, which assumes that the company will continue to operate as a going concern in the foreseeable future.

#### b. Use of Estimates :

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during and at end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Differences between actual results and estimates are recognised in the period in which the results are known or materialised.

#### c. Revenue Recognition :

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

#### d. Taxes on Income:

Provision for Current tax is made based on the liability computed in accordance with the relevant tax rates and tax laws.

Provision for deferred tax is made for timing differences arising between the taxable incomes and accounting income computed

using the tax rates and the laws that have been enacted or substantively enacted as of the balance sheet date.

#### e. Foreign Currencies:

The functional currency of the Company is Euros which represents the currency of the primary economic environment in which it operates.

In preparing the financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in Statement of profit and loss in the period in which they arise except for:

(i) exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

#### f. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events. It is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.
